

## NDAA/ITAR Compliance Statement

EarthCam, Inc. is pleased to affirm that our entire product portfolio, which includes solutions marketed to the US government, Department of Defense (DoD) and associated contractors and affiliates, is fully NDAA-compliant.

Furthermore EarthCam, Inc. does not employ any SoC (System on Chip), telecommunications equipment or other components capable of processing software, from the banned Chinese companies outlined in the John S. McCain National Defense Authorization Act (NDAA) for Fiscal Year 2019 that was signed into law on August 13, 2018. All EarthCam products use NDAA-compliant chipsets.

Furthermore EarthCam, Inc. supports compliance with United States International Traffic in Arms Regulations (ITAR) - 22 CFR Parts 120-130 - as a part of managing a comprehensive export compliance program by controlling exports. EarthCam does not engage in the production, development and manufacturing of items or software/data controlled by the CFR Title 22 Part 121 United States Munitions List.

For more information, regarding a more detailed bill of materials declaration of NDAA compliance required for a specific proposal, procurement, or contract assurances, please contact:
